CATCH Test Application #1 - Villanueva

Values to enter in the applicant wizard | Matches "Test Datas # 1"

Use these values to fill in the CATCH applicant wizard, one step at a time. Every value matches the other synthetic files in this folder (ID card, passport, COEC, payslips, bank statement, TU report), so the OCR comparison should line up after upload. Dates are MM/DD/YYYY, the format the date pickers take when typed. Money fields take plain numbers without commas or currency signs.

Expected results when testing

DBR (fails)	At an assumed 7% over 20 years, the monthly amortization is about PHP 19,380. With the PHP 2,500 SSS loan: (19,380 + 2,500) / 47,000 = about 47%, in the worst (>40%) band, so the exception checker should flag it. For a clean pass, use a loan amount of 1500000.
LCR	2,500,000 / 3,200,000 = about 78% (60-80% band).
Required documents	Locally employed: Valid ID x2, COE / ITR, Payslips.
